# RUBBER BAND COLOUR CHART

## How to Measure a Rubber Band

Rubber bands are measured in the lay-flat position. The circle of the band is pushed together giving a long double strip. End to end is the length, opposite direction is the width, and the wall thickness remains constant at between 1–1.2mm.

LENGTH	AVAILABLE COLOURS										
20MM											
30MM											
40MM											
50MM											
65MM											
80MM											
90MM											
100MM											
130MM											
150MM											
180MM											
200MM											

## Key

Natural Brown	White	Yellow	Red	Orange	Purple	Pink	Blue	Green	Lime Green	Black

### Note:

- Colours are indicative only and will differ from that of the actual rubber.
- Colours may vary between batches.
